Dear Sir/Madam:

This letter is to express my interest in Machine Learning and Computer Vision. With a Bachelor's degree in Information Technology, and hands-on experience using python library such as Scikit, Numpy, Matplotlib, OpenCV and TensorFlow to create and implement app for data analysing, I am confident I will be an asset to work as an engineering.

I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn new languages and development techniques are important to me and the success of your organization.

A few skills I would like to highlight that would enable me to contribute to, bottom line are:

- Highly skilled in designing, testing, and developing software
- Professional in python Object Oriented Programming (OOP)
- Thorough understanding of Agile methodology and CI/CD
- Knowledgeable of back-end and front-end development
- Hands-on software troubleshooting experience
- Proven track record of proper documentation for future maintenance and upgrades

For farther more about my projects and experience in software development. Please contact me at:
